PROFESSIONAL SUMMARY

Senior Software Engineer and Technical Lead with 11+ years of experience designing, developing, optimizing, and delivering scalable web applications, developer platforms, documentation experiences, and digital products. Strong hands-on expertise in JavaScript, React.js, Next.js, Gatsby.js, Node.js, HTML5, CSS3, Sass, Tailwind CSS, REST APIs, responsive web development, performance optimization, SEO, accessibility, Git, CI/CD, debugging, refactoring, and production releases. Proven experience owning technical initiatives end-to-end, partnering with Product, Design, Marketing, and Engineering teams, mentoring developers, and using AI-assisted engineering workflows with Claude and ChatGPT to accelerate delivery and improve engineering productivity.

CORE TECHNICAL SKILLS

Frontend: JavaScript, React.js, Next.js, Gatsby.js, HTML5, CSS3, Sass, Tailwind CSS, jQuery, Bootstrap, Responsive Web Design

Backend & APIs: Node.js, REST APIs, API Integration

Engineering: Git, CI/CD, Testing, Debugging, Refactoring, Performance Optimization, Production Readiness

Quality & Web: SEO, Accessibility, Cross-Browser Compatibility, Developer Experience

Leadership: Technical Leadership, Technical Ownership, Solution Planning, Technical Design, Code Review, Root Cause Analysis, Mentoring

AI ENGINEERING

- Claude and ChatGPT: codebase analysis, debugging, refactoring, test generation, technical research, documentation, implementation support, and workflow automation.
- AI-assisted engineering: decomposed complex requirements into actionable tasks, evaluated implementation approaches, analyzed dependencies, and accelerated delivery while retaining technical review and engineering ownership.

PROFESSIONAL EXPERIENCE

Contentstack — Senior Software Engineer II | Technical Lead / Team Lead 09/2015 – 08/2026

- Owned end-to-end technical initiatives across solution planning, implementation, testing, production deployment, release management, troubleshooting, and continuous improvement.
- Led frontend and web engineering initiatives using React.js, Next.js, Gatsby.js, Node.js, JavaScript, HTML5, CSS3, Sass, and Tailwind CSS, with focus on maintainability, performance, SEO, accessibility, and responsive design.
- Partnered with Product, Design, Marketing, and Engineering stakeholders to resolve complex technical problems, manage dependencies, and drive delivery.
- Contributed to CI/CD, production readiness, debugging, refactoring, technical documentation, release processes, and post-release improvements.

Project Polaris

- Owned solution planning, implementation, performance optimization, production readiness, and continuous technical improvements.
- Contributed to approximately 30% growth in site traffic through performance, SEO, visibility, and user-experience improvements.
- Optimized the site to achieve a performance score of nearly 90/100 and addressed frontend performance bottlenecks through analysis, optimization, refactoring, and debugging.
- Implemented a dark/light theme switcher using Tailwind CSS and Sass, and applied Claude and ChatGPT to accelerate technical analysis, debugging, research, testing, refactoring, and implementation.

Homepage Takeover Animation Project

- Took ownership of the Homepage Takeover animation project, an interactive, animation-driven homepage experience designed to showcase platform capabilities to prospective customers.
- Increased customer reach and engagement by delivering an interactive experience that visitors used to evaluate the value of the CMS platform.
- Contributed to nearly 40% growth in site traffic and improved visitor-to-customer conversion, as prospects assessed platform value through the animation experience before converting into customers.

Contentstack Docs & API Docs

- Owned documentation experiences across development, optimization, production releases, troubleshooting, and continuous improvements.
- Improved documentation performance and usability with focus on page speed, SEO, accessibility, responsive design, and developer experience.
- Built and optimized documentation experiences using React.js, Gatsby.js, Next.js, JavaScript, HTML5, CSS3, and Sass.

Kodework — UI Developer

02/2015 – 09/2015

- Developed responsive website interfaces using HTML5, CSS3, JavaScript, jQuery, and Bootstrap.
- Translated design concepts into production-ready responsive interfaces and supported brand development and UI implementation.
- Developed and customized WordPress websites.

Datamatics Global Services Limited — Web Designer

10/2014 – 02/2015

- Developed website interfaces using HTML5, CSS3, JavaScript, jQuery, and Bootstrap.
- Converted design requirements into responsive, browser-compatible web interfaces and supported brand development.

Kush Infosystem Private Limited — Web Developer

01/2013 – 10/2014

- Developed websites using HTML5, CSS3, JavaScript, jQuery, Bootstrap, and WordPress.
- Built responsive web interfaces from business and design requirements and supported end-to-end website delivery.

Thakur Polytechnic — Lecturer

08/2011 – 01/2013

- Delivered technical instruction in Microprocessors, Digital Techniques, HTML, Multimedia & Animation Techniques, and Management.
- Prepared technical lectures and practical learning sessions covering computer and web technology fundamentals.

CERTIFICATIONS

- Scrum Fundamentals Certified (SFC)

AWARDS & ACHIEVEMENTS

- Above and Beyond Award — Contentstack (Received Twice) — Recognized twice for delivering animation-rich web experiences and contributing to CCON campaign websites.
- Jury Member — National Level Technical Paper Presentation — Selected as a Jury Member at Thakur Polytechnic for evaluating technical presentations.
- Jury Member — National Level Project Competition — Served as a Jury Member for a National Level Project Competition sponsored by MSBTE at Thakur Polytechnic.
- Mentor — Smart India Hackathon 2018 — Recognized for mentoring an IT project at Smart India Hackathon 2018, organized under MHRD.
- Best Developer — Kush Infosystems Pvt. Ltd. — Awarded Best Developer for technical contribution and development expertise.
- Final Year Project — Face Recognition System — Developed a Face Recognition System using MATLAB 7.0.
- Technical Paper Presentation — MSBTE — Recognized for participation at Datta Meghe Polytechnic, Nagpur.
- SCADA / PLC Course — Successfully completed training in industrial automation and control systems.
- Winner — General Knowledge Competition — Won with a score of 74%.
- Technical Paper Presentation — Pandav Engineering College — Received recognition for participation.

EDUCATION

- RTM Nagpur University — Bachelor of Engineering (B.E.), Information Technology | 2008 - 2011
- Maharashtra State Board of Technical Education (MSBTE) — Diploma, Electrical, Electronics & Communications Engineering | 2005 - 2008
- Mumbai — Secondary School Certificate (SSC) | 2005
